## SPEC'S Cheese of the Week

### Montegrappa

For centuries, the people in the foothills around Mount Grappa produced large wheels of cheese cooperatively to preserve their milk and its nutrition. The cheese came to be known as Montegrappa whose texture is dense and yet yielding to the bite, slightly sweet, nutty and delicately salty. The flavor pairs well with a variety of beverages and of course any good seasonal or dried fruit. It is no slouch in the kitchen either. It shaves nicely and melts very well, and can be used in any recipe calling for an Asiago type cheese.
