

## Fantastic Finds Worth Taking a Peek

by Collin Williams

As we continue to provide information and useful tidbits about some of our winery partners it seems appropriate that this week's article include some of the "lesser known" producers that we carry. What these guys lack in overall market presence they make up for in incredible value.

In fact, due to their "flying under the radar" approach, I have deemed the title of this article as Fantastic Finds.

Think of it as a new wine discovery that you can share with and impress your friends.

### Printhie Winery (Australia)

Who said Australian wines went away? If you ask us, they never left. In fact, Australian wines have become better and better over the years and are still the same amazing value-oriented products that we have grown to love.

A testament to this unfaltering quality-to-price ratio wines is one of our favorites, Printhie. Based in a unique region of Australia called Orange, Printhie makes wines that are perfectly balanced, priced affordably, and offer amazing flavors. Also, these wines are not confined to just Shiraz but incorporate many different varietals that are sure to impress. Try these wonderful wines with your next barbeque or while cooking "shrimp on the Barbie!"

**Printhie Shiraz/Viognier, Cabernet/Shiraz, Chardonnay, Merlot, Shiraz All priced at \$16.69 cash**

### Ca' Momi Wines (Napa Valley)

The wines From Ca' Momi are fresh, full of flavor, and add the Napa valley influence to the mix of complexity. We have enjoyed these wines, their success, and their approach to winemaking so much that we have added nearly everything they make to our wine selections. Also, Ca' Momi is the first winery in the United States to use a recyclable enclosure called "Nova Twist". Along with advancing the thought of a completely earth - friendly product, the Ca' Momi wines also capitalize on reducing their carbon footprint.

**Ca' Momi Chardonnay - \$13.90**

**Ca' Momi Merlot - \$13.96**

**Ca' Momi Muscat - \$7.99**

**Ca' Momi Pinot Noir - \$17.98**

### Villa Jolanda (Italy)

Sparkling wines from Italy are red hot right now! In fact, we have seen a strong trend developing by our customers who are demanding great tasting, value oriented bubbles and especially those made from the Moscato grape. We have heard the demands and have answered with a line of wines we think is sure to fit the bill. Villa Jolanda offers a wide variety of wines from Italy, each with their own sense of personality and flavor.
